Quote tag

The `<q>` tag defines a short **quotation**.

Note : `<q>` is an **inline** element because it can be put inside a line of text without affecting it

```
<p>PNC's goal is to: <q> enable  
the largest number of young  
people in a precarious situation  
to access training, leading to a  
qualified job </q>. We hope they  
succeed.</p>
